## LifeWave Energy Patches Measured with Auramed Biopulsar Reflexograph / 17.12.2005

## Male, appr. 45 years old, **BEFORE** application of patches

**Aura** on the left. Note: dark blue and especially violett and white areas indicate energy blockages. Yellow and orange areas represent lack of energy in respective organs and body parts. The more green and turquoise, the more the aura is energetically in balance.

**Vitality** curves below. The green line represents energy balance. If the measured energy curve runs below the green line there is a lack of energy. If the measured energy curve runs above the green line there is an energy blockage. Gradually rising or decreasing curves indicate fatigue (chronic or non-chronic).
